INTRODUCTION

In order to realize the sustainable development of a beautiful and prosperous society into the future, it is essential to create a society in harmony with our global environment. This type of the ideal society, or EcoTopia, is what we must strive to achieve in 21st century. In creating such a society, interdisciplinary research that integrates the natural sciences with humanities and the social sciences is of ever-increasing importance, starting with the cyclical use and regeneration of goods, energy, and information and their balance with human beings.

The EcoTopia Science Institute has been launched on April, 2004 as a research center at Nagoya University to realize such an idea, and approved as an official institute attached to the university in April, 2006. This institute is the largest research institute at Nagoya University and consists of the Division of Integrated Research Projects and four Core Research Divisions on Nano-Materials Science, Energy Science, Environmental Research and Information and Communication Sciences. This institute is expected to play a principal role to promote interdisciplinary and integrated research for various problems of the sustainable society.

The EcoTopia Science Institute, Nagoya University will organize the International Symposium on EcoTopia Science 2011 (ISETS '11) for three days from 9th to 11th December at Nagoya University, Furo-cho, Chikusa-ku, Nagoya, JAPAN. This Symposium is the fourth of a series of symposia starting with ISETS05 held in 2005. As a place of discussion and information exchange, we provide a forum on the most recent progress in the fields of interdisciplinary sciences integrating natural sciences, humanities and social sciences as the weft, and also in the fields of nano-materials, energy, environment, information and communication as the warp. The program for the three-day ISETS '11 will include several invited lectures by world-renowned scientists and engineers in the organized sessions and contributed papers as well as general and poster sessions.

We appreciate you for your kind support and encouragement very much.

ISETS '11 Executive Committee Chair
 Professor Takayoshi TANJI
 EcoTopia Science Institute, Nagoya University

IMPORTANT DATES

Abstract Submission	June 1, 2011 — August 31, 2011
Announcement of Final Program	November 1, 2011
Early Registration Deadline	October 31, 2011
Regular Registration Deadline	December 2, 2011
Application for Symposium Dinner	December 2, 2011

※All the contributors are required to register by Oct. 31.

REGISTRATION FEE

	Delegates	Students
Early (On or before Oct. 31)	35,000JPY	10,000JPY
Regular (Nov. 1 - Dec. 2)	40,000JPY	12,000JPY
On-site	45,000JPY	15,000JPY

※All the contributors are required to register by Oct. 31

ORGANIZATION

ORGANIZING COMMITTEE

EcoTopia Science Institute, Nagoya University
 Chair: Osamu TAKAI
 Vice-Chairs: Kuniyuki KITAGAWA
 Goro OBINATA

EXECUTIVE COMMITTEE

EcoTopia Science Institute, Nagoya University
 Chair: Takayoshi TANJI
 Secretary General: Nobuo TANAKA
 Program Chair: Toshinobu YOGO

SESSIONS (temporally)

1. Innovative Materials and Characterization for Nanotechnology, Biotechnology and Environment
2. Green Energy Systems and Related Issues
3. Green Production, Recycling and Emission Management
4. Information and Communication Technology for Green
5. Green Vehicle Technology
6. Resource Recovery and Refinery Technologies for Biomass and Biowastes
7. Engineering Cybernetics and Behavioral Science
8. Energy and Environmental Assessment and Indicators

CALL FOR PAPERS

All aspects of EcoTopia Science from basic researches to applications will be of interest in the symposium. Scientists and engineers from any discipline, who are engaged in research, development and technology areas related to EcoTopia science, are invited to contribute papers. All submitted papers will be reviewed for the publication and presentation in oral or poster sessions. Young scientists and students are particularly welcome to ISETS '11. Best poster prizes will be awarded to outstanding authors of poster sessions.

Those who intend to contribute papers are requested to submit proceedings of A4 one page including figures according to the sample format. The proceedings should be sent as "PDF files" attached to "e-mail" to the symposium office by August 31, 2011.

The web site is located below:

<http://www.esi.nagoya-u.ac.jp/h/isets11/>

Please refer to the following IMPORTANT DATES for the symposium schedule. The details of the symposium will be available at the symposium web site.

The e-mail address of the symposium office:

isets2011@jecs.org

VENUE

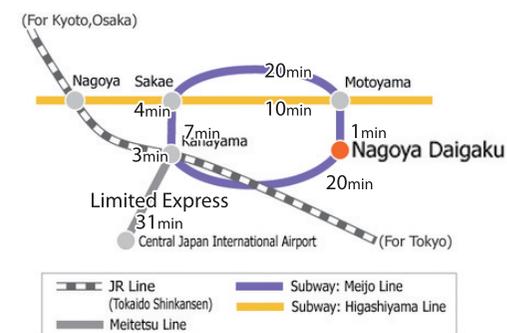

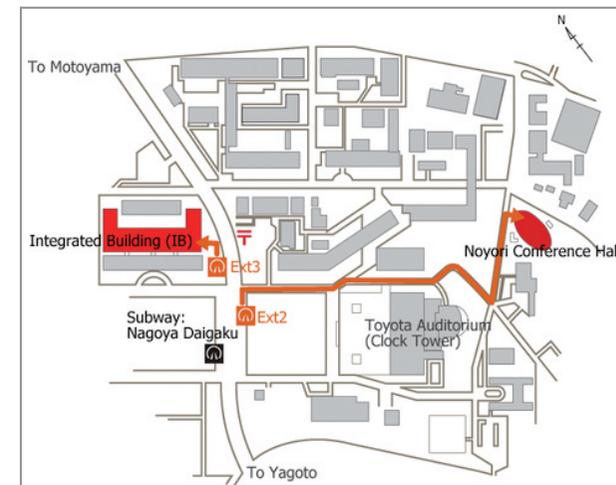

The site for the symposium is Integrated Building of Nagoya University. Located in the geometrically central district of Japan, Nagoya City is world-famous for various industries of advanced ceramics, aerospace, automobiles etc., and also known for its historical sites such as "Three Great Shoguns" and beautiful castles. The symposium attendees can fully enjoy the historical sites, museums and downtown before and/or after ISETS '11.

The information will be available at the conference desk. The climate in the Nagoya area in December is characterized by average temperatures ranging from +5°C (41°F) to +13°C (55°F) with some possibility of rain.

Nagoya University can be easily accessed from the Central Japan International Airport "Centrair" by train (Meitetsu Line, Central Japan International Airport - Kanayama, about 25 min) and subway (Meijo Line, Kanayama - Nagoya Daigaku, about 20 min). Integrated Building of Nagoya University is just beside the subway exit No. 3 (within 1 min by walk). For the campus map, refer to
